

# Celebrating

## 20 years of the GMRT

4<sup>th</sup> and 5<sup>th</sup> October 2021

(online via zoom, with live youtube streaming)

The GMRT was formally inaugurated and dedicated to the global astronomy community on 4<sup>th</sup> October 2001. This year will mark 20 years of operations of this unique facility. To commemorate the occasion, we are planning a celebratory event on 4<sup>th</sup> and 5<sup>th</sup> October 2021.

If you are interested in joining this online event or conveying a message on this special occasion (we intend to compile and release all messages), please fill out this form, so that we can keep you informed about the programme and other details : <http://tinyurl.com/20yearsofGMRT>

### Programme Highlights

- » Highlights of the scientific & engineering achievements and milestones over the years
- » Review of the impact that the GMRT has had
- » Future prospects for the facility
- » Release of certain new data products, analysis tools & pipelines

There will be 4 sessions of 3 hours each over the 2 days, each having a mix of science and engineering presentations, release events, discussion sessions, and some commemorative events.

We look forward to participation of a wide range of people who have been associated with the GMRT over the years, either as planners or designers, builders or users of the facility.

Please stay tuned for further updates and details of the programme. Meanwhile, do mark your calendars for 4<sup>th</sup> and 5<sup>th</sup> October for this exciting event.
