

**Vasudev Mittal**, Indian Institute of Science Education and Research Mohali

---

Congratulations to all the visionaries, builders and the managing committee of GMRT on this achievement. In its past 20 years of operation, the facility has helped us in understanding some of the deepest secrets of the cosmos. May this trend continue in the coming years. I hope that it will continue to hold the distinction of being one of the best radio telescope facility in the world for years to come and the echo of its achievements will continue to be heard in the human history.
